

CORPORATE GOVERNANCE CHARTER

Introduction

Deceuninck NV strategy has, for many years, been determined by very strict principles of integrity, corporate governance, well-balanced serving of interests, independence, transparency and responsible entrepreneurship.

The Group's philosophy has always been to respect the autonomy of the individual subsidiary and its decision-making bodies, whilst taking the economic reality and the specific nature, size and structure of the Group into account.

The Board of Directors endorses the principles of corporate governance and transparency as determined in the Belgian Corporate Governance Code of 12th March 2009 (hereafter "the Code"). In those cases where it is of the opinion that deviation from the Code is necessary, this deviation will be explained in its annual report.

The Board of Directors undertakes to adhere to the principles formulated in the Code:

1. The company operates a clear governance structure.
2. The company has an effective and efficient Board of Directors, which makes decisions in the company's interest.
3. All Directors must show integrity and dedication.
4. The company has a strict and transparent procedure for the appointment and assessment of its board and its members.
5. The Board of Directors sets up specialised committees.
6. The company establishes a clear structure for executive management.
7. The company remunerates the Directors and executive managers in a fair and proper way.
8. The company shall enter into a dialogue with shareholders and potential shareholders based on a mutual understanding of objectives and concerns.
9. The company guarantees appropriate publication of its corporate governance.

The Company's Corporate Governance Charter has been compiled in accordance with the recommendations set out in the Code. The Code is based on a "comply with or explain" system: Belgian listed companies should follow the Code, but may deviate from its provisions and guidelines (though not from the principles) provided it discloses the justification for such deviation. The Board of Directors of Deceuninck reviewed its Corporate Governance Charter in the light of the changes that were made to the initial Code issued on 9th December 2004 and has, where necessary, taken the necessary measures to modify its governance practices and the Corporate Governance Charter accordingly. The Board of Directors of Deceuninck declares that it applies the Code as reference code regarding corporate governance. The Company's Board of Directors complies with the Code, but believes that the following deviation from its stipulations is justified in view of the Company's particular situation.

In accordance with article 518, §1 C. Code, the Board of Directors is comprised of at least 3 members. The Board of Directors must be composed of Executive Directors, independent Directors and other non-Executive Directors. The number of members of the Board of Directors is not subject to any provision in the Articles of Association and may vary according to the needs of the Company.

At present the Board of Directors has ten members of which one Executive Director, three independent Directors and four Directors who represent the reference shareholders.

The Board of Directors submits, as necessary, nominations to the general meeting to ensure that it is composed of Directors who are active in different areas and who, in general, have different training and professional experience. At least half of the members of the Board of Directors must be non-Executive Directors. At least three Directors must be independent.

The decision appointing independent Directors also mentions the grounds upon which the capacity of independent director is granted.

When assessing independence the Board of Directors shall firstly check whether the candidate in question for the position of independent Director satisfies the criteria stated in article 526ter of the Company Code.

Independence is an ongoing quality: as soon as an independent Director establishes, during his mandate, that he no longer complies with one of the requirements of independence described above, he must immediately inform the Board of Directors of this.

2.2. NOMINATION

- a) The members of the Board of Directors are nominated by the general meeting. Any proposal for the nomination of a Director should be accompanied by a recommendation from the Board of Directors, based on the advice of the Remuneration and Nomination Committee. If a position as Director becomes vacant, the remaining Directors have the possibility to temporarily fill that vacancy.
- b) The Remuneration and Nomination Committee nominates one or more candidates for appointment, taking into account the needs of Deceuninck and in accordance with the appointment procedure and selection criteria drawn up by the Board of Directors.
- c) The composition of the Board of Directors shall take into account the necessity for both diversity and complementarity regarding gender, skills, experience and know-how.
- d) Members of the Board of Directors are appointed for a period of maximum term of office of four years.
- e) Resigning Directors may always be re-elected. The age limit is determined at 70 at the moment of re-election.

2.3.1. Role

Deceuninck is managed by a Board of Directors acting jointly and collectively.

The Board of Directors is the highest body within the company and has the most extensive powers to take all action necessary or useful for the achievement of its objectives, with the exception of those activities for which, according to the law or the Articles of Association, only the general meeting is authorised.

The Board of Directors is responsible, on the one hand, for the leadership of the company and, on the other, for monitoring and managing the risks associated with the activities of the Group in order to ensure the long-term success of the company. In translating values and strategies, the Board pays attention to corporate social responsibility, gender diversity and diversity in general.

It is accountable to the general meeting for the fulfilment of its tasks.

2.3.2. Tasks

Within the framework of its legal powers and those entrusted to it by the Articles of Association, among the tasks of the Board of Directors are:

- determining the strategic target objectives of the Group, its willingness to take risks, its values and its main policies;
- ensuring that the necessary financial and human resources are available to enable Group to realise its objectives;
- monitoring the existence and activities of the internal control system designed to effectively identify and manage risks (such as risks relating to compliance with existing legislation and rules), taking into account the review made by the Audit Committee;
- deciding on the structure of the Executive Team, determining its powers and duties, monitoring this and assessing performance.
- ensuring the quality, time-limit and accuracy of the published financial reports and, in particular, guaranteeing the integrity of the annual accounts;
- selecting the External Auditor and monitoring their efforts and being responsible for monitoring the internal audit position;
- being responsible for the Group's corporate governance structure and adherence to the corporate governance provisions;
- monitoring the quality and the timely disclosure of the information provided to the shareholders and the public and evaluating the relevant interests of those involved in the Group;
- monitoring the activities and the independence of the external auditor and the independent internal audit activity;
- monitoring and reviewing the effectiveness of the Board's Committees;
- making decisions regarding acquisitions, major organisational changes and the sale and acquisition of land and buildings.

When carrying out its tasks, the Board of Directors acts in the interests of the Group.

2.4. ACTIVITIES OF THE BOARD OF DIRECTORS

2.4.1 Meetings of the Board of Directors

- a) The Board of Directors meets at least six times a year or as often as considered necessary or desirable for the Board of Directors to function correctly.
The number of meetings of the Board of Directors and the attendance percentage at the meetings are published in the corporate governance statement of the annual report.
- b) The non-Executive Directors must meet at least once a year without the CEO present.
- c) The meetings of the Board of Directors are convened by the Chairman, who is obliged to convene a meeting if so requested by at least two Directors. All items for inclusion on the agenda that are put forward by at least two Directors must be included on the agenda.
The convening notice for the meeting is sent at least five days in advance. A convening notice for the meeting is not required if all members agree to meet. Except in urgent cases (the Chairman of the Board of Directors determines this), the agenda is sent to all members of the Board of Directors at least five calendar days before the meeting. As much written explanation and additional information as possible is provided for each topic on the agenda. For each topic on the agenda is specified whether decision-making is required. The Directors are always asked to study in detail the information they receive in advance so that they have a thorough understanding of the main aspects of the Group's activities. Clarification is provided at their request, either by the CEO or by other members of the Executive Team, and/or other members of staff of the Group.
For each meeting the CEO provides the Board of Directors with all sales results, consolidated key figures, investments and other relevant information enabling the Directors to assess the evolution of the company.
- d) The meetings of the Board of Directors are presided over by the Chairman of the Board of Directors. In the absence of the Chairman of the Board of Directors the meeting is presided over by the Vice Chairman and, in the absence of the latter, by the oldest Director present, unless the Chairman himself has appointed his deputy.
- e) All Directors unable to attend may, by means of a letter, fax or e-mail, give another Director a proxy to vote on his behalf and, in that event, the person giving the proxy is regarded as being present. Such a proxy must be submitted to the Chairman of the Board of Directors or, in his or her absence, to the members of the Board of Directors present at the meeting.
- f) The members of the Board of Directors present and represented decide, with a majority of votes, on the admission to the meeting of persons other than Directors and the Secretary.
- g) Minutes of the deliberations and decisions of a meeting of the Board of Directors are taken by the Secretary. The minutes provide a summary of the discussions and the decisions taken and record any reservations expressed by Directors. The minutes are approved by the Board of Directors at the same or the next meeting. All Directors may have their opinion or comments included in the minutes. In the event of a refusal to sign the minutes, the reasons for this refusal are noted in the minutes.

2.4.2. Committees

In order to be able to fulfil its tasks and responsibilities efficiently, the Board of Directors has set up specialised Committees to analyse specific matters and to advise the Board of Directors on them. In addition to being able to set up other Committees, the Board of Directors has set up an Audit Committee and a Remuneration and Nomination Committee.

The role of these Committees is purely advisory; the ultimate decision-making lies with the Board of Directors.

The Board of Directors shall ensure that all members of each Committee have the specific knowledge and qualities necessary for the committee to operate in the best possible way.

The Board of Directors determined the terms of reference for each Committee, where it details the role, the composition and the operation of each Committee.

2.4.3. Secretary

The Board of Directors appointed the General Counsel as the Company secretary. The secretary reports to the Board of Directors on how Board procedures, rules and regulations are being followed and complied with. The secretary ensures, under the direction of the Chairman, good information flow within the Board and its Committees. Directors have individual access to the Company secretary.

2.5. CHAIRMAN OF THE BOARD OF DIRECTORS

The Chairman takes the necessary measures to ensure that, within the Board of Directors, an atmosphere of trust is created that encourages open discussion, constructive criticism and support for the decisions made by the board.

The Chairman stimulates active interaction between the Board of Directors and the Executive Team. He shall maintain a close relationship with the CEO and provide him with support and advice with regard for the operational responsibility of the CEO.

2.6. PROFESSIONAL DEVELOPMENT OF THE BOARD OF DIRECTORS

2.6.1 Training and professional development

- a) Appropriate introduction training is provided for newly appointed Directors so that they can form a correct and faithful picture of the Group.

The main objectives of the training programme are:

- to help the new Directors acquire insight into the fundamental characteristics of the Group, including its management, strategy, main policies, financial and business challenges;
- to advise the new Directors on their rights and obligations as a Director.

If a newly appointed Director is also a member of a Committee, the introduction training shall also include a description of the activities of that Committee, including a description of the specific role and tasks of the Committee.

- b) The Directors are individually responsible for maintaining and developing the knowledge and skills that they require in order to be able to do their job as part of the Board of Directors and Committees of which they are a member. The Group makes the necessary means for this available to the Directors. If a Director wishes to acquire further skills or improve his knowledge he can ask the Board of Directors if he may follow the appropriate training. The Board of Directors shall decide whether or not this request is granted.

2.6.2 Advice

Directors (and Committees) can, at the Group's expense, obtain independent professional advice on issues that fall within their remit, after the Chairman of the Board of Directors has given his permission for this.

2.6.3 Evaluation

- a) The Board of Directors is responsible for an annual evaluation of its own effectiveness to enable constant improvement of the management of the group. To this end, the Board of Directors, led by its Chairman, carries out an evaluation of its scope, composition, activities and interaction with the Executive Team.

This evaluation has four objectives:

- to assess the activities of the Board of Directors and of the relevant Committees;
 - to check whether important issues are thoroughly prepared and discussed;
 - to evaluate the actual contribution of the Board of Directors; and
 - to assess the current composition of the Board of Directors or Committee in light of the desired composition of the Board of Directors or Committee.

The Chairman of the Board of Directors and his execution of his role within the Board of Directors is also carefully evaluated.
- c) On the basis of the results of the evaluation, the Chairman shall provide the Board of Directors with a report describing the weaknesses and strengths and, if necessary, propose the appointment of new Directors or propose that a Director's mandate to the Remuneration and Nomination Committee is not renewed.
- d) The CEO shall annually assess his interaction with the Executive Team and submit proposals to the Chairman of the Board of Directors regarding the improvement of this interaction.
- e) The CEO shall, together with the Remuneration and Nomination Committee, annually assess the activities and achievements of the Executive Team. The evaluation criteria must be clearly established. The CEO may not be present at the discussion concerning his own assessment.

The Remuneration and Nomination Committee is responsible for drawing up the remuneration policy and for the nomination policy and the nomination of the executive and non-Executive Directors and the members of the Executive Team.

- a) Each Director is expected to carry out his Director's mandate in an honest, ethical and reliable way. All Directors must, above all, bear the interests of the company in mind. - b) All members of the Board of Directors are expected to fully commit themselves to fulfilling their responsibilities. The Directors must ensure that they receive detailed and accurate information, which they study thoroughly in order to have an understanding of the main aspects of company activities at all times. - c) All Directors undertake both during their mandate as member of the Board of Directors and afterwards, not to pass on, in any way, to third parties confidential information relating to the Group, unless they are obliged to do so by law.
A Director may pass on the information referred to above to personnel from the Group who, because of their activities for the Group, should be given the information in question. A member of the Board of Directors may not use the information referred to above for his own purposes in any way.

- e) All Directors are expected to comply with the policy and legal provisions relating to transactions and other contractual ties between the Company and its Directors.

If a Director, directly or indirectly, has an interest of a property rights nature that is in conflict with a decision or activity that falls under the powers of the Board of Directors, the procedure established in article 523 C. Code is applied.

If a conflict of interests, as described below other than a conflict of interests in the sense of article 523 C. Code, exists for a Director relating to a matter that falls within the powers of the Board of Directors and about which he must make a decision, the Director in question shall inform the other members of the Board of Directors of this in advance. The Board of Directors shall then decide whether the Director in question should or should not abstain from the vote on the matter to which the conflict of interests relates. In such a case the Director in question can take part in the deliberations.

There is a question of a conflict of interests in the sense of article 523 C. Code in the event that:

Non-Executive Directors receive a fixed amount as remuneration for the execution of their mandate increased by a fixed amount per board meeting, limited to a maximum amount. Performance based remuneration such as bonuses, share-related incentive programs, fringe benefits are excluded. The size of the remuneration for the Chairman, the Vice-Chairman and other Non-Executive Directors varies.

The Directors charged with special tasks and projects receive an appropriate remuneration for this.

The provisions relating to the remuneration of non-Executive Directors also apply for the Executive Directors in their capacity as a Director.

The remuneration of the Directors is approved by the general meeting.

4.3.2. The CEO and the members of the Executive Team

The remuneration policy and the level of the remuneration are aimed at attracting, retaining and motivating competent and professional people. Therefore the size of the remuneration is determined in relation to the individual tasks and responsibilities.

The Remuneration and Nomination Committee regularly checks that remuneration is competitive within the market.

The members of the Executive Team receive, in addition to a fixed remuneration, a variable remuneration that is linked to the performance of the company and to individual performance. They also have a company car placed at their disposal and are included in group insurance.
